-

PROFESSIONAL EXPERIENCE

Web Developer

Venus Vacations Pvt. Ltd – Mumbai

Jul 2024 – Present

- Developed a self-booking tool with React and Tailwind CSS, integrating backend APIs for seamless reservation management.
- Improved user experience and performance through responsive design and ongoing optimization based on feedback.

Application Development Associate

Accenture – Bengaluru

Dec 2022 – Jul 2023

- Developed scalable enterprise applications with clean code, following agile practices throughout analysis, testing, and deployment.
 - Collaborated cross-functionally to resolve performance issues and improve application usability.
-

PROJECTS

Real-Time Chat App

MERN stack chat application with real-time one-on-one messaging using Socket.io.

- Implemented live WebSocket communication with Socket.io for instant messaging.
 - Secured with JWT authentication and bcrypt password hashing.
 - <https://github.com/virajdomadia/ChatApp.git> | <https://realtime-chatapp-viraj.vercel.app/>
-

E-Commerce App

Full-stack MERN e-commerce platform featuring product CRUD, shopping cart, and checkout.

- Enabled JWT-based authentication for users and admin role management.
 - Built product CRUD operations restricted to admin, with responsive frontend in React & Tailwind CSS.
 - <https://github.com/virajdomadia/E-Commerce.git> | <https://ecommerce-viraj.vercel.app/>
-

Task Manager App

Task management system built with MERN stack featuring filters, sorting, and JWT auth.

- Developed secure user authentication and task CRUD operations.
- Added task filtering and priority sorting for productivity.
